## WHO WE ARE

# Overview

The Beaut Truck team is dedicated to creating the vibe everywhere we go. Providing our amazing services literally on your door or office step. Hair styling, blowdrying, make up, lashes and even glitter are just a few of the services we offer, with an on board salon back wash, we pride ourselves on being a truly mobile pop up salon with a quirky and head turning aesthetic.

Our philosophy in business is to build professional relationships and work toward a better future for not only the planet and environment but amongst humanity as a whole. We believe striving for brighter days is paramount and we believe this all starts with mental health.

Mental health is something most people have struggled with at one point in their lives. Having a workplace who supports a work life balance and helps employees create a safe working environment for everyone is something we fully support and endorse.

The concept of The Beaut Truck is to be as versatile as we can, whether we are working a festival in a muddy field or at wedding venues across the country we provide our services with kindness and professionalism. Every staff member has been hand picked for not only being great at the job, but genuinely being able to bring something unique to our team and our clients.
